Brought to you by the Health Promotion Board, this play portrays the trials and tribulations of people with dementia and their struggles to come to terms with their illness.

When Mdm Wong begins her retirement, all she can think of is enjoying her golden years. However, rest turns into restlessness as she starts to lose her short-term memory. Her dream of peaceful life soon becomes a nightmare of remembering and forgetting.

Presented by The Necessary Stage in Mandarin and English. There will be a post-show dialogue with the audience on dementia.
